## Taymor Unveils Keyless Entry Deadbolt to Meet Growing Consumer Demands

SAN FRANCISCO, January 25, 2015 — Newly launched at the 2015 International Builders' Show (IBS) in Las Vegas, the Concierge 400 keyless entry deadbolt from Taymor pulls out all the stops in digital lock concepts. Easy to install, easy to program and easy to use; Concierge 400 completely eliminates the need for keys.

Featuring a motorized deadbolt, Concierge 400 opens the door with a few simple taps on an illuminated keypad and locks it with just one. The fingerprint-resistant touchscreen and optional code scrambling function ensure your finger wear pattern remains undetectable. Stacked with user-friendly features the Concierge 400 is the perfect solution for homeowners who are thinking about taking their home security to the next level. Plus, it's offered at an attractive price point.

"If you've ever lost your keys, this product could be a lifesaver," said Scott McGillivray, host of HGTV's hit series, *Income Property*. "When it comes to home security this kind of product can be a really smart purchase," he said.

Visitors to the Taymor booth at IBS had an opportunity to take a photo with McGillivray who listed the Concierge 400 as a highlight of the show [on his website](#).

"The show [IBS] surpassed all of our expectations in terms of booth traffic," said Taymor Director of Marketing, Wendy Johansson. "We are inspired by the great conversations we had with builders, renovators, designers, and consumers and are very optimistic about the year ahead."
